WORK EXPERIENCE

Stomble, Software Engineer

JUN 2019 - FEB 2020

- Developed and implemented wireframes into a video web application platform using ReactJS and MaterialUI as front-end, integrated back-end functionality using Redux state management, ES6 (XHR, promises, async) and AWS.
- Worked in an agile environment such as SCRUM to deliver solutions per sprint.
- Writing scalable, responsive, multi-platform, SEO friendly HTML & CSS (Sass).
- Assisted in system analysis and UI/UX designing (wireframes, animations, transitions and micro-interactions).

Woolworths, Customer Service

NOV 2018 - PRESENT

- Worked closely and efficiently in many different teams (deli, sales, produce stocktake) to ensure team KPI's such as raising money for donation targets were met.
- Displaying exceptional customer service skills through providing product knowledge, strong interpersonal skills and customer awareness.

David Jones, Sales Assistant

OCT 2018 - FEB 2019

- Worked in a team environment and able to coordinate amongst team members.
- Organised point of sales transactions for customer purchases and returns.
- Able to prioritise and complete multiple tasks in a fast-paced retail environment.
